SUMMARY

Detail-oriented Bachelor of Science in Information Technology graduate with technical exposure to web development, system support, and database management gained through academic projects and hands-on internship training. Familiar with front-end technologies, basic automation, and SQL development. Seeking an entry-level IT or developer role where I can apply my technical skills, problem-solving abilities, and passion for building efficient, user-friendly systems.

ON THE JOB TRAINING EXPERIENCE

March 2025 - June 2025

IT Intern - Project Procurement Management System Support

Massive Integrated Tech Solutions Incorporated, Cainta

- Assisted in managing the hospital's product procurement system.
- Provided technical support for inventory and request modules.
- Trained nursing staff on how to use the system for ordering supplies.
- Built a Python script to automate excel data merging.
- Created a SQL stored procedure that migrates data from one table to another.

EDUCATION

June 2019 - June 2025

Bachelor of Science in Information Technology

Technological Institute of the Philippines

- Specialization in Cybersecurity
- Relevant coursework in Website Development and Cybersecurity

ACADEMIC PROJECTS

Electroboost

- Developed an Android-based educational mobile application using the Ionic framework.
- Integrated quizzes, video learning content, and user progress tracking.
- Focused on user-friendly UI design and clear instructional flow to enhance learning experience.

Food IT

- Designed and developed an interactive recipe web application using React.js.
- Implemented Google Sign-In authentication via OAuth 2.0 and recipe bookmarking functionality.
- Prioritized user experience (UX) with intuitive navigation and clear interface design.

Apitong's Catering Website

- Developed a reservation and e-commerce website using HTML, CSS, JavaScript, and PHP.
- Implemented core features including user authentication, shopping cart, and admin dashboard.
- Conducted penetration testing to identify vulnerabilities and improve application security.
